

Horizontal Mill (GMH)

Precision-Meets-Versatility: Leak-Proof Milling Solution

The Horizontal Mill (GMH-series), constructed from high-grade steel, incorporates a mechanical seal type to ensure leak-free operation under various conditions. It guarantees consistent, efficient processing, longevity, and minimal downtime.

This versatile machine effortlessly handles high and low viscosity mill bases, streamlining efficiency in one-tank operations. Its energy-optimized design reduces consumption, ensuring cost-effective performance. Its horizontal orientation, allows for easy operation and minimal maintenance.

The ability to use harder media increases its flexibility. The Horizontal Mill represents a dependable and efficient milling solution.

Efficient Processing

Effectively grinds high-viscosity concentrates

Mechanical Seal

Ensures leak-proof operation and extended equipment life.

Versatile & Efficient

Handles High and Low Viscosity Mill Bases

Hygienic Design

Stainless Steel Tank & Pocketless Valve for Easy Cleaning.

Durable

Built for longevity and minimal downtime. High quality steel

Energy-Optimized

Low energy consumption for cost-effective operation

SCADA + HMI Control & Monitoring Option

Hygienic Design Option

Hazardous Environment Option

Model	Vessel Capacity (ℓ)	Motor (KW)		Peripheral Speed m / sec	Weight (kg)	A	B	C	D	E
